

# Possible Benefits of a High-Quality Data System

## Enhancing Part C or 619 Data System

- New and/or improved reports that support more robust data-informed decision-making
- Improved data quality by minimizing data entry errors/omissions (e.g., new data entry audits)

## Linking Part C and 619 Data Systems

- Better coordination of children transitioning from Part C to Part B to promote continuity of services
- Improved accuracy/completeness of data reported to OSEP by streamlining the data sharing process
